

*THE SAFEPOINT GUIDE TO
DISPENSING AND VALIDATING SAFES*

SAFEPOINT®

No matter how much cash you handle, or what level of control you need, get the right dispensing and validating safes for the job.

SafePoint offers a comprehensive line of top-quality cash-handling safes.

SafePoint offers some of the industry's most advanced, automated Dispensing/Validating models, not to mention superior customer service – 24 hours a day, seven days a week.

To determine which SafePoint cash-handling safe is right for you, look through the enclosed inserts for a concise overview of SafePoint's many cash-handling options.

To learn more about SafePoint, contact your SafePoint sales representative.

BILL VALIDATING SAFES

Providing incredible precision and control, our industry-leading Bill Validating Safes accurately discriminate between denominations with the use of multiple wavelength optical sensing and sophisticated data processing – practically eliminating counting mistakes and internal theft.

Bills of nearly all conditions are accepted, fed in either direction, face up or face down.

NKL® BULK VALIDATOR

- Bulk validating technology, which allows you to process and verify up to 25 notes at a time
- Available with one or two multi-note validators
- Modular design allows full integration with other compatible safes
- Has the unique ability to be serviced without exposing the deposited cash
- Maximum 2000-note capacity per validator
- Remote access to cash reporting
- Integrates with POS systems

JCM Bulk Feed Validator with front-load style locking cassette

Easy to service – Entire feeder and head assembly can be pulled without opening the secure compartment

BILL VALIDATING SAFES

The Sentinel SCD (Stand-Alone Cash Depository) is ideal

for the business that deals in high volumes of cash.

One and two high capacity bill validators are controlled through a PIN

based touchscreen interface that accounts for every cash deposit made.

SENTINEL SCD (STAND ALONE CASH DEPOSITORY) BILL VALIDATOR

- Two separate time-delayed vaults for bill validator cassette and auxiliary storage security
- Bill validators with high capacity cassettes standard
- PIN and data key system allows managed access to functions and reports
- Integrate with POS, back office PC, or remote location
- Storage for up to 48,000 financial and security-related transactions to better facilitate auditing
- All transactions, deposits, drops and vault access can be tracked back to an individual user through the use of PINs
- Managers can easily add, modify and delete clerk access through the touchscreen interface
- Advanced accounting features that allow for a variety of reports including bill insertions, courier pickups, transactions, shift reports and daily summaries
- Remote Data Access software

DESCRIPTION	DIMENSIONS (HxWxD)	WEIGHT
SCD SINGLE NOTE VALIDATOR	30.75" x 11.25" x 24"	270 lbs.
SCD DUAL NOTE VALIDATOR	30.75" x 14.5" x 24"	350 lbs.

BULK COIN DISPENSER/ BULK COIN NOTE DISPENSER

The Sentinel BCD (Bulk Coin Dispenser) and the Sentinel BCND (Bulk Coin Note Dispenser)

are ideal for businesses not wanting to handle rolled coins.

While they both offer bulk coin dispensing in any quantity,

the Sentinel BCND (Bulk Coin Note Dispenser) dispenses notes as well.

SENTINEL BCD (BULK COIN DISPENSER)

- Handles bulk change dispensed in custom defined intervals and amounts
- Available in a 6 cup hopper
- Can be configured to dispense multiple predetermined start-of-shift change funds
- Up to 8 coin hoppers
- 3 Separate time-delayed vaults for coins, bill validator cassette security and auxiliary storage
- Touchscreen for PIN and data key system allows managed access to functions and reports
- Integrate with POS, back office PC, or remote location
- Storage for up to 48,000 financial and security-related transactions for auditing ease
- Remote Data Access software

DESCRIPTION	DIMENSIONS (HxWxD)	WEIGHT
SENTINEL BCD	30.75" x 33" x 24"	605 lbs.

SENTINEL BCND (BULK COIN & NOTE DISPENSER)

- Note dispenser has 2, 3 or 4 canisters with 500 notes each
- Two bulk note validators with 1,500 note capacity cassettes or 2 single note validators with 1,500 note capacity cassettes
- Easily integrates with ethernet LAN for interface to POS, back office or remote locations
- 48,000 transactions tracked back to individual by PIN number to facilitate reporting and audits
- Remote Data Access software

DESCRIPTION	DIMENSIONS (HxWxD)	WEIGHT
SENTINEL BCND	30.75" x 35.5" x 24"	660 lbs.

TUBE VEND

Sentinel Tube Vend provides a single note validator

in a 21 inch width configuration

for stores requiring a safe with a smaller footprint.

SENTINEL TUBE VEND

- Two separate time-delayed vaults for manual drops, bill validator cassette security and auxiliary storage
- Integral vend-tube locking bar that prevents unauthorized manipulation of change fund
- PIN and data key system allows managed access to functions and reports
- Sidecar module(s) that can be detached and expanded to support multiple workstations with bill validators
- Optional courier data key that allows instant access to vaults
- Integrate with POS, back office PC, or remote location
- Managers can easily add, modify and delete clerk access through the touchscreen interface
- Advanced accounting features that allow for a variety of reports including vault drops, bill insertions, courier pickups, transactions, shift reports and daily summaries
- Storage for up to 48,000 financial and security-related transactions to better facilitate auditing
- Report information can be downloaded remotely and setup information can be managed remotely via network connection
- Remote Data Access software

DESCRIPTION	DIMENSIONS (HxWxD)	WEIGHT
SENTINEL	30.75" x 21" x 19"	437 lbs.

CASH POSITION REPORTING

CPR - CASH POSITION REPORTING

SafePoint® is our integrated service solution designed to save money for retailers and to give them more control over their cash, while enhancing security for their employees. Part of that control involves using SafePoint's automated Cash Position Reporting (CPR) system. This patent-pending technology is simple to use, but comprehensive enough to provide you with the control required to manage your cash levels. Retailers and their financial institutions now have access to daily cash balance information from any networked computer in the world. This web-based technology gives treasury management and audit and balance teammates the benefit of time-saving information in a secured, validated and guaranteed environment. It's all part of the Loomis cash management network – the largest in the nation – that provides seamless service to your retail and commercial customers from coast to coast.

ARMORED TRANSPORT

ARMORED TRANSPORT

Historically, transporting cash in a secure manner throughout the nation's banking and retail network has been our primary service offering.

Today, our armored transport services represent a critical component of our integrated cash distribution network. Our overall transportation network including over 200 operating locations is the most extensive in the United States and Puerto Rico. In most cases, we are where you are to provide deposit pickup, change order services, emergency and special transport services. Our national network of operating locations electronically links contract, routing and service information

to help insure accuracy and dependability.

Ultimately what distinguishes Loomis is the professionalism of our people. They respect your place of business, and work as teams to keep each other, your property and your people safe and secure. They understand service as well as security, and take pride in being the best. As a result, you feel confident when a Loomis professional is at your place of business. You feel confident that the risk of robbery is much lower than it might otherwise be because our people are carefully trained to identify risky situations and avoid incidents before they happen. You can feel confident that you are protecting your people as well as your assets.

Whether you are a small retailer or community bank dealing directly with our local team or a large multi-location retailer or regional bank requiring a more centralized point of contact to coordinate service needs, we can help.

CASH MANAGEMENT SERVICES

CASH MANAGEMENT SERVICES

Once known exclusively for armored transportation, the Loomis cash management, or vault services (CMS), are increasingly in demand.

In recent years, we have dramatically enhanced and automated our nationwide cash processing network, including the introduction of an eBusiness capability which has revolutionized the way we communicate service information and transact business with our customers. Today's Loomis is best characterized as a comprehensive cash distribution company with an exceptional integrated cash processing and transportation capability.

Our cash management services include these offerings:

- Bulk cash processing, including Federal Reserve breakdowns, change orders and ATM cash preparation, verification and consolidation
- Deposit processing, including night drops, ATM deposit pickups, branch deposits and commercial deposit consolidation
- Coin processing, including wrapping, sorting and delivery
- Currency and coin inventory storage and management
- Check processing
- Electronic activity reporting detailing services performed
- Web-based change order system

The quality of our cash vault services is what you would expect of any professional cash handling company. This is the result of combining the right people, the right technology and strong quality control.
